# JUMP!

## INTO OUR ADJUNCT FACULTY POOL

Students at Lakeshore Technical College appreciate learning from faculty who are not only trained in their field, but experienced. LTC offers formal training through our Teaching and Learning Center, as well as the Wisconsin Technical College System Faculty Quality Assurance System, to teach adjunct instructors how to provide quality education.

If you are interested in shaping our community's future workers by providing instruction to students in any of the areas listed to the right, we welcome you to apply for an adjunct teaching position. We have immediate need in some areas, and are establishing a pool of candidates in others.
